Art Unit: 2164

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 6-12, 16-17, 19-20, 22-23 and 33 are rejected under 35 U.S.C. 101 because the claimed invention is non-statutory.

Claim 19: Claim 19 is a method which results only in a determination. A determination is not a tangible result, and thus the claim is non-statutory. The fact that the method is "computer implemented" does make the result tangible, since the computer performs the method steps but is not the result of the method steps. See *State Street Bank & Trust Co. v. Signature Financial Group Inc.*, 149 F.3d 1368, 47 USPQ2d 1596 (Fed. Cir. 1998) for the requirement of a tangible result.

Claims 6-12, 16-17, 20, 22-23 and 33: Depend from claim 19.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 6-11, 16-17, 19-20, 22-24 and 27-31 rejected under 35 U.S.C. 103(a) as being unpatentable over Freivald et al. (U.S. Patent 5,898,836) in view of Glogau (U.S. Patent 5,983,351).

The reasons for this rejection were set forth in the office action of July 13, 2005 and are hereby incorporated by reference.

Art Unit: 2164

Claims 12, 25, 26, 32 and 33 rejected under 35 U.S.C. 103(a) as being unpatentable over Freivald (U.S. Patent 5,898,836) in view of Glogau (U.S. Patent 5,983,351) and further in view of Information Today.

The reasons for this rejection were set forth in the office action of July 13, 2005 and are hereby incorporated by reference.

Remarks

A pre-appeal conference was held and the decision of this conference was mailed November 20, 2006. The decision resulting from this conference was to sustain both the rejections applied under 35 USC 103(a), but to add the new grounds of rejection under 35 USC 101. Accordingly, this office action includes the new grounds of rejection under 35 USC 101 and this action is made non-final.
